

CL2 Disc Chain

Unit Weight: 23kg

Total Weight (per metre): 107kg/m

Degree of Concave: 25 degrees

Diameter: 360mm

Spacing: 215mm

A powerful disc for heavy soils and high volume residue

The CL2 Disc Chain consists of a concave, replaceable disc mounted in a heavy cast steel boss with a hook and eye link for linking together, which makes service and replacement easy and cost efficient.

The design of the CL2 Disc provides penetration into heavy soils while the weight and shape of the boss keeps the disc cutting and limits the working depth, making it our most powerful tool.

Made for high volume stubble management and reliable weed control, the CL2 Disc Chain is the perfect addition to your Kelly Tillage System.
