

Warranty Registration Process

Dealers are required to register the machines at the time of delivery to the customer.

Kelly offers an additional 12-month warranty to the dealer if the machine is registered within 2 months from the date of delivery. Machine registrations can be completed by the purchaser or dealer on the Kelly website or the Kelly supplied Warranty Registration Form in the Operator Manual.

Our warranty process is designed to provide Kelly with the information required to ensure thorough and complete after sales customer service. Therefore, completing all fields correctly is very important.

The Warranty Registration Form is located in the Kelly Portal section on the Kelly website. It is important that all sections are completed before you submit the form.
