

Spiked Disc Chain

**Heavy duty Spiked Disc Chain
combines effectiveness with utility.**

The Spiked Disc Chain creates a blemish free soil surface for optimum planter performance. With 10 spikes per disc, the leveling and incorporating action provides a premium shallow-running seedbed preparation tool.

The Spiked Disc Chain is very effective at removing weeds, making it an ideal tool for pre or post seeding clean up.

The shallow working depth and combining action means the Spiked Discs are light to pull and cover more acres at a higher speed, while the self-cleaning spikes handle wet conditions effectively.

| UNIT WEIGHT | CHAIN WEIGHT | DISC CONCAVITY | DIAMETER | SPACING |
|-------------|--------------|-------------------|----------|---------|
| 22lb | 53lb/ft | 20° | 12" | 4.9" |
