

Better Tillage. Better Tomorrow.

Warranty Registration Process

To allow Kelly to provide complete and thorough after sales customer service and support on all machines sold, we require machines to be registered for warranty at the time of delivery to the Customer.

Dealers can register machines for warranty via the Kelly website or the warranty registration form supplied in the Operators manual. It is essential that all fields are completed accurately with customer details.

Kelly offers an additional 36 month warranty on all machines registered within 2 months of original date of delivery.

Customers may also provide their details by returning the warranty registration form or accessing the machine registration page on the Kelly Website.
