

CL2 Disc Chain

A powerful disc for rough conditions and heavy soils

The CL2 Disc Chain consists of a concave, replaceable disc mounted in a heavy cast steel boss with a hook and eye link for linking together, which makes service and replacement easy and cost efficient.

The design of the CL2 Disc provides penetration into tough soils while the weight and shape of the boss keeps the disc cutting and limits the working depth, making it our most powerful tool.

Made for heavy stubble management and reliable weed control, the CL2 Disc Chain is the perfect addition to your Kelly Tillage System.

Unit Weight	Chain Weight	Disc Concavity	Diameter	spacing
24kg	110kg/m	25°	360mm	215mm
